

## PRESSED FOR TROOPS.

## France Calling on Conscripts Abroad to Return.

Gen. Campenon, the French Minister of War, has issued a new decree. The decree is a call to arms, and is a call to arms for the conscripts of the French army who are abroad. It is a call to arms for the conscripts of the French army who are abroad. It is a call to arms for the conscripts of the French army who are abroad.

MONTREAL, January 2.—Vice-Consul Perault states that he has recently been in receipt of numbers of letters from France requesting the conscripts to return to their regiments. These requests are forwarded to all consuls, and if the conscript or soldier, after being notified, fails to respond, he is regarded as a deserter and liable to arrest. Perault finds that a number who have settled down and are prospering decline emphatically to go soldiering again. The want of troops for Tonquin, it is thought, has brought matters to this pass.

OTTAWA, January 2.—The house occupied by Ovide Leclerc, at Hull, burned this morning. The occupant is in a hurry to escape, and a three-year-old child, which perished in the flames.

Constables Nicholas, Abbey, Palmer and Bridgewater attempted to arrest the offenders, who drove away and made a desperate resistance. In a few seconds all of the officers were suffering from cuts and stabs. Bricks were freely used, and one or two persons who assisted the officers were struck. Five wounded men were taken to the hospital. Constables Nicholas, Abbey, Palmer and Bridgewater were taken to the hospital. Constables Nicholas, Abbey, Palmer and Bridgewater were taken to the hospital.

## THE UNDERGROUND RAILROAD EXPLOSION.

LONDON, January 2.—An explosion occurred last evening at 8:30 o'clock near the Gower Street Station of the Underground Railway. At the hour named a rumbling sound was heard and a slight shock was felt by the residents and people in the neighborhood of the station. People were thrown down by the shock, and the windows of a passing train and of several houses were broken. The noise attracted a great crowd to the ventilating shaft of the road from which smoke was issuing. Superintendent Williamson and other officials of Scotland Yard, investigated the place shortly after the explosion. The signal box east of St. Pancras Church was wrecked, the clock stopped and the wire was broken on the north side of the line, midway between St. Pancras Church and Chancery. At this point there is a hole in the solid masonry, about five inches deep and four feet in diameter. The wall was further damaged around the spot. The fact that the walls are not blackened shows that dynamite or gun cotton must have been used. The newspapers charge the explosion with dynamite, and urge increased severity and vigilance.

## THE PROBABLE PERPETRATOR.

LONDON, January 2.—A passenger on the train that left Gower street for King's Cross Station, a few minutes before the time of the explosion, says he saw a man who wore an ulster, with a fur collar and a soft wide-brimmed hat, enter the compartment next to that in which he sat. The man carried a parcel of apparently considerable weight, wrapped in a cloth of American manufacture. Shortly after the train left Gower street, the man let down the window of the compartment with a loud slam. He got out at Farringdon street and walked away. He was then without the parcel. The passenger thought the stranger had forgotten it, and looked over the partition between the compartments and discovered that the parcel was gone.

PARIS, January 2.—The Government announces that Gen. Campenon has resigned the portfolio of the Ministry of War, because Prime Minister Ferry de-manded that more reinforcements be sent to Tonquin. Campenon refused to accede, assigning as a reason that such action would compromise the mobilization of the army. Gen. Lewal will probably succeed Campenon.

NEW YORK, January 2.—A strong movement on the part of the Dry Goods Clerks' Association in Grand street, backed by the labor unions, to obtain a complete mastery of the situation now that the discharge of holiday employees is at hand, resulted yesterday in a counter current that presages near trouble. The police were called upon by a committee of merchants to protect their property in the event of a general strike. To-day the street swarmed with the police, who feared trouble. The clerks, being over the employers have assumed an attitude of defiance toward the owners of their clerks and as a result a bitter resentment. The Clerks' Association de-
